

Christ for India

Greetings in the Name of Jesus

INTRODUCING MY FAMILY

- JOYCE
- Sheril
- Marlo
- Roshin
- Ranjit

Greetings in the matchless name of our soon coming Lord Jesus Christ.

I want to express my heartfelt gratitude to every one of you for your generous and faithful support to our ministry in India. I believe that God has brought you to be a part of our team, to achieve one of the greatest goals in His Kingdom and that is to

reach the nation of India with 1.2 Billion people. We have been continually and rapidly growing in every facet of our ministry .

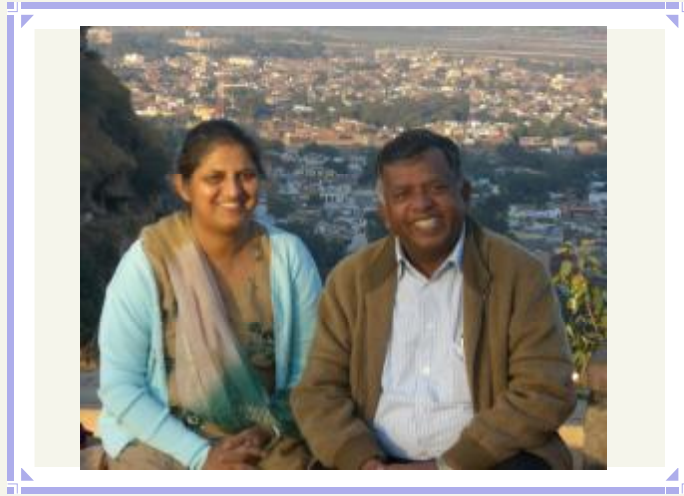

Our ministry has grown with over 2500 churches, 16 Bible Schools, 6 Christian High Schools, 12 Orphanages, 30 sewing schools and so on.

Apart from this we feed

almost 1000 street children everyday and running rehabilitation centers for HIV Aids Victims.

I have been sending news about the Ministry, in the past . This time I have chosen to share with you about my family and how the Lord is leading each one of us.

Joyce and Abraham

Joyce and I were married in 1980, in Kerala South India. After being married one week, we traveled by train for 56 hours to our Mission field in New Delhi, to fulfill God's will and His call in our lives. We remember those days where we were lost in our own country in the midst of people with strange languages and culture. India is like a nation of nations, with a big divide of north and south. South Indians prefer to stay in south and vice versa. As a young married couple away from our families and friends, we went through a lot of loneliness and hardship. We both believed God would begin doing great things through our lives. God gave us 2 daughters (Sheril and Roshin) and a son Ranjit. As the years passed by, our little ministry which was based in the Capital city of Delhi started spreading across the country to the extent that today we have a National Movement to be reckoned with. We believe God has a lot more for us to do in this nation before the Lord's coming.

Marlo and Sheril

My daughter Sheril, finished her Bachelors Degree in Psychology here in India , Sheril received a call of God in her life. Instead of going for higher studies she chose to go to a Bible College in the USA to prepare herself for the ministry. She attended College at the Portland Bible College in Oregon, which is one of the reputed Bible colleges. Sheril is a highly talented and seasoned singer and carries a great anointing in leading worship.

Sheril and Marlo were married in 2005. Marlo, is the son of one of our own pastors and has completed his bachelors Degree in Chemistry .

He too received the call of God and went to Australia to pursue his Theological studies. He did his Bachelors and Masters in Theology from the Southern Cross Bible College in Sydney, Australia. Later on he did his research and got his Doctorate in Theology as well. Though he had many ministry offers in Australia he chose to come back to minister in India.

Today Marlo and Sheril are the most integrated part of our ministry. Marlo, is the Youth pastor of our City church in Delhi while Sheril is our worship Leader. They are also in charge of all the orphanages in the country. They both teach in our Bible College and also run a vibrant feeding program for street children of Delhi providing food for 400 children every day. They are truly a great help and blessing for us.

Roshin

Our 2nd child , has recently completed a degree in business administration. Roshin had a dream of doing her Masters in Business Administration in the most prestigious Business School in the Country, which is

Comparable to Harvard in the USA, or Oxford in UK. It is called the Indian Institute of Management (IIM), which is run by our Federal Government. Every year out of 200000 students writing the entrance exam only 1800 people are chosen in this institute. Roshin topped in the competitive Exam and secured her admission in this Institute. She graduated last year and was recruited from the Campus itself for an Executive job in an American Company called Hewitt Associates. While doing her job she felt the call of God on her life to go into the ministry and join our team. Last month , she has put in her resignation letter and is waiting to be relieved in September to join us. She has sacrificed a very high paying job to fulfill God's call. With her great expertise, Roshin will be an asset and blessing for us. We are proud of her.

Ranjit is our only son and the baby of his mother. After graduating from

school he went on to do his Engineering Degree in Information and Technology (IT) in one of the great Christian Universities in India. During his studies he discovered his talent in music and singing. He plays several musical instruments and is also wonderful singer. He started writing his own songs and

formed a music group in the college which won several awards in musical competitions. He was recruited on campus for a job in a very reputed and large computer company called Wipro. On the 31st of December 2007 Ranjit got up a the meeting and surprised all of us by stating, "God is calling me to work for His Kingdom and that's what I have chosen above a secular job." He graduated on July 4th 2009 and is preparing to go to a Bible College.

Friends, this is part of the story of our family , whom you have known , loved and supported for many years. I wanted you to know how much we as a family,

are committed to the building the Kingdom of God and willing to make the utmost sacrifice

India needs Jesus Christ and we need you to stand by us. I challenge every one of you who is reading this newsletter to become a prayer and financial supporter of this ever growing ministry.

May God richly bless you.

Yours in His Commission

Abraham,
Joyce, Sheril and Marlo, Roshin
and Ranjit
